

Minor subjects in English, academic year 2016-17			
There may be restrictions to selecting a minor subject in your Master's degree programme.			
These limitations can be found in the Degree Structure of the Master's Programme and in your personal weboodi -study plan (PSP).			
You find the content of each minor in the weboodi study guide (weboodi > study guide > minor studies 2016-17 > degree structure)			
When adding the minor to your PSP, use the minor code.			
Minors in Mechanical Engineering			
Code (for PSP)	Name	To whom?	Note!
KoDSaManu	Modern Manufacturing	Master's student in Technology	No prerequisites
KoDSaLaser	Advanced Digital Laser Based Photonic Products	Master's student in Technology	No prerequisites
KoDSaMate	Advanced Materials Engineering	Master's student in Technology	No prerequisites
KoDSaSusta	Sustainability	Master's student in Mechanical Engineering	
Minors in Environmental Engineering			
Code (for PSP)	Name	To whom?	Note!
YmDSaResp	Responsible Environmental Technology	Master's student in Technology excluding Environmental Engineering students	See the prerequisites of each course
YmDSaEnergy	Global Energy Revolution	Master's student in Environmental Engineering	See the prerequisites of each course
Minors in Energy Technology			
Code (for PSP)	Name	To whom?	Note!
EnDSaBT	Bio-Energy Technology	Master's student in Technology excluding Energy Technology students	See the prerequisites of each course
EnDMES	Modelling of Energy Systems	energiateknikan omille (syventymisestä riippuen) ja muille DI-opiskelijoille Master's student in Technology, also Energy Technology students depending on the specialisation studies	See the prerequisites of each course
Minors in Electrical Engineering			
Code (for PSP)	Name	To whom?	Note!
SaDSaIE	Industrial Embedded Systems	Master's student in Technology	See the prerequisites of each course
SaDREE	Renewable Energy and Energy Efficiency	Master's student in Technology	See the prerequisites of each course
SaDSaEDM2	Power Electronics and Electrical Drives	Master's student in Technology	See the prerequisites of each course
Minors in Chemical Engineering			
Code (for PSP)	Name	To whom?	Note!
KeSaD210	Separation Technology	Master's student in Chemical Engineering	See the prerequisites of each course
KeSaD920	Green Process Technology	Master's student in Chemical Engineering	
KeSoD200	Process Design	Master's student in Chemical Engineering	
KeSoD200	Advanced Water Treatment	Master's student in Chemical Engineering	
Minors in Computational Engineering			
Code (for PSP)	Name	To whom?	Note!
MaDIntM300	Technomathematics	Master's students in Technology excluding Computational Engineering*	See the prerequisites of each course
FyDInt300	Technical Physics	Master's students in Technology excluding Computational Engineering*	See the prerequisites of each course
MaDSaM300	Intelligent Computing	Master's students in Technology excluding Computational Engineering*	See the prerequisites of each course
*Computational Engineering students may also choose these minors if they are not the same as their major specialization			

Minor in Industrial Engineering & Management							
Code (for PSP)	Name	To whom?	Note!				
TuSOEntr	Entrepreneurship, minor	All degree students					
Minor in Computer Science							
Code (for PSP)	Name	To whom?	Note!				
TiDSOTite	Tietotekniikka (= Minor in Computer Science)	Master's students in Technology	See the prerequisites of each course				
Minors in Business Administration							
Code (for PSP)	Name	To whom?	Note!				
KaSOlbn	International Business and Management	Bachelor's and Master's students in Technology					
KaSOMTijo	Knowledge and Innovation Management	Master's students in Business Administration					
KaSOMSust	Sustainability	Master's students in Business Administration					
KaSOMIntm	International Marketing	Master's students in Business Administration					
KaSOMBusan	Business Analytics	Master's students in Business Administration					
KaSOMsm	Supply Management	Master's students in Business Administration
