LUT School of Business and Management

Master's Programme in Supply Management (MSM)

MASTER'S PROGRAMMES IN BUSINESS ADMINISTRATION

This Study Guide includes the degree structure and curriculum of the master's programme in Supply Management (MSM).

- Master of Science in Economics and Business Administration, M.Sc.(Econ. & Bus.Adm.), 120 credits, duration 2 years.
- Higher university degree, gives eligibility to scientific doctoral studies.

The aims and content of Master's studies in Business Administration in Lappeenranta University of Technology are based on the university's strategic focus areas – especially sustainable value creation.

LEARNING OUTCOMES OF THE MASTER'S PROGRAMMES IN BUSINESS ADMINISTRATION

The aims and content of Master's studies in business administration in Lappeenranta University of Technology are based on the university's strategic focus areas – especially sustainable value creation.

The aim of the Master's studies is to provide students with wide-ranging skills and knowledge to work in management positions in business. Students who complete the degree also possess the knowledge, skills and mindset needed for postgraduate studies. In other words, the Master's degree helps the graduate to respond to the growing professional requirements of industries and also lays a foundation for doctoral studies in business administration.

Students are able to influence the contents of their studies by making choices based on their own strengths, interests and goals. The learning outcomes of the Master's programmes are of the same academic level but different in content.

The learning outcomes of the Master's Programmes in Business Administration: Graduated student

- is a competent expert in his/her field
- is able to apply scientific knowledge and methods in practice
- is able to integrate different fields and views of business administration
- is a productive and responsible teamplayer and
- has a global point of view to business.

Degree structures

The Master's programme in Supply Management is designed for future specialists and managers of supplier relationships, networks and strategic buying. The programme gives students frameworks, tools and models how to effectively manage costs and risks of supply market, evaluate and select suppliers, develop supply strategies and integration of supply chain.

Graduates can find specialist and management positions in both the public and private sector, as well as in global and local companies in the fields of supply management, international business, logistics, supply chain management and consulting. Examples of such positions include global sourcing director, supply manager, category manager and strategic buyer.

The core studies of the programme focus on strategic and operative supply management, purchasing, collaboration and relationships between suppliers and buyers, management of supply chains, networks and external resources. The program builds on previous studies at the undergraduate level of business management and international business. The curriculum of the programme is built on three cornerstones in the field: 1) strategic supply management, 2) supplier and network management, and 3) supply chain management.

After completing the programme students:

- understand the strategic role of supply management and purchasing in global business and value creation
- are able to develop and evaluate supply management strategies in global context
- are able to develop and analyze purchasing and supply management processes as a part of business strategy
- know the main theories of managing supply, suppliers and value networks
- recognize the global supply network risks and challenges
- can apply relevant methods and skills to manage supply chains and supplier relationships
- have strong analytical skills and can apply tools required for professional practices.

Master's Programme in Supply Management 2017-2018 (MSM)

Degree structure status: published

Academic year: 2017-18

Beginning date of the academic year: 01.08.2017

Complementary studies (min 3 cp)

Complementary studies must be completed in addition to the actual Master's level studies in business administration. They are not included in the Master's degree.

Important! Students who have received their education in Finnish or Swedish must demonstrate in studies included in education for a lower or higher university degree that they have attained proficiency in Swedish required by decree (Government Decree on University Degrees, 6§). If the required proficiency in Swedish has not been demonstrated in a previous degree, it must be demonstrated in studies at LUT in addition to other complementary studies. However, this is not required of students who have been educated in a language other than Finnish or Swedish or who have been educated abroad. This rule applies to all degree programmes.

Students, who have graduated as B.Sc. (Econ. & Bus. Adm.) in Finland:

A130A0050 Introduction to Studies of Economic Sciences for Master's Students, 3 ECTS cr

All other students study in addition also the course:

A350A0050 Business Research Methods, 6 ECTS cr.

Academic Skills (min 6 cp)

KaMsmAs: Academic Skills of Master's in Supply Management, 6 cp

Obligatory

A365A0551: Master's Transferable Skills, 3 cp

A310A8500: Master's Thesis Seminar, Supply Management, 3 cp

Specialisation Studies (min 48 cp)

KaMsmSs: , 42 - 48 cp

Obligatory studies 48 ECTS cr

A310A0201: External Resource Management, 6 cp

A310A0301: Supply Chain Improvement, 6 cp

A310A0651: Risk Management in Supply Chain, 6 cp

A310A9100: Master's Thesis, Supply Management, 30 cp

Minor Studies (min 24 cp)

Please note that the students of MSM programme can not include the Minors Hankintojen johtaminen nor Supply Management in their degree.

Language Studies (min 6 cp)

Foreign language, not English. Please see

<https://www.saimia.fi/en-fi/studies/study-information/language-centre>

Free Elective Studies

Core Studies (min 36 cp)

KaMmsmCs: Core Studies, MSM, 36 - 48 cp

Obligatory courses 24 ECTS cr

A310A0101: Strategic Supply Management, 6 cp

A310A0660: Financial Supply Management, 6 cp

A310A0501: Sustainable Global Sourcing, 6 cp

Teachers: Karl-Erik Michelsen

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

1-2

Teaching Language:

English

Teacher(s) in Charge:

Professor Ph.D. Karl-Erik Michelsen

Aims:

The learning outcomes of the course are the following: -To understand the principles of scientific method and to know how relevant objective knowledge is produced. -To be able to read critically and write fluently academic text -To be able to design and organize independently a research project -To be able to set relevant goals and to work in multicultural teams

Contents:

The course covers the following themes: - What is science and what is scientific method - Academic argumentation - Scientific writing - Basics of project work and project management - Basics of team work

Teaching Methods:

Compulsory intensive lectures 4 hours total done in one day. No exceptions allowed. Four personal assignments each 20 hours of time. Total workload between 80 to 100 hours. Moodle is used in this course.

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

No

Examination in Exam (Yes/No):

No

Assessment:

Final grade 0-5. Evaluated on scale 0 - 100 p. Lectures are compulsory, assignments each 1 - 25 points.

Course Materials:

Selected materials, available in Moodle.

Prerequisites:

Bachelor's Degree

Places for exchange-students? (Yes, number/No):

No

Places for Open University Students?(Yes, number/No):

This course has 1-5 places for open university students. More information on the web site for open university instructions.

A310A8500: Master's Thesis Seminar, Supply Management, 3 cp

Validity: 01.08.2014 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Anni-Kaisa Kähkönen, Katrina Lintukangas

Year:

M.Sc. (Econ. & Bus. Adm.) 2

Period:

1-2, 3-4

Teaching Language:

English

Teacher(s) in Charge:

Associate Professor D.Sc. (Econ. & Bus. Adm.) Katrina Lintukangas (period 1-2), Associate Professor D.Sc. (Econ. & Bus. Adm.) Anni-Kaisa Kähkönen (period 3-4)

Aims:

Upon completion of the course, students will be able to delimit and define the purpose and the topic of their research. They will know the theory and research methods relevant to their major subject. They will understand the importance of a theoretical framework in own research and in solving empirical research problems. Students are able to justify and explain the main points of the research both in oral presentation and in written format. Students can assess, evaluate and analyze reports written by other students and defend their own choices relating to the research in the seminars. Students can collect and choose relevant literature based on critical evaluation. They demonstrate the ability to compare and combine information based on literature and empirical material.

Contents:

Student familiarizes him/herself with the structure of Master's thesis and the standards related to the thesis, and plans his/her own thesis work. During the course the student will: - participate in the introductory lecture - analyze a completed Master's thesis (free choice) - prepare the analysis of the research topic - prepare and present the research plan - draw up and present the preliminary version of the thesis (70-80% completed, includes introduction, literature review, research design and preliminary findings) and act as a discussant for another student's thesis. Moodle is used in this course.

Teaching Methods:

Seminars, Periods 1-4. Two alternative groups, one starting in the fall and the other in the spring. Introductory lecture (3 h). Seminar I: presentation of the research plan and analysis of the research topic (6 h). Seminar II: presentation of the preliminary version of the thesis and acting as a discussant for another student's thesis (6 h) - Preparing for the seminars and drawing up the first preliminary version of the manuscript (65 h). Total workload 80 h. Moodle is used in this course.

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

No

Examination in Exam (Yes/No):

No

Assessment:

Accepted / failed. In order to pass the course, the student is expected to participate actively in the seminars and proceed in his/her own research work according to the course schedule. Similarity tests of all ready theses will be performed in order to check for plagiarism.

Course Materials:

Lecture notes and other assigned reading.

Prerequisites:

Before the seminar begins, the student must have an idea about the topic of the thesis and he/she has discussed it with a potential supervisor. Approximately 30 ECTS cr. Supply Management master's studies.

Places for exchange-students? (Yes, number/No):

No

Places for Open University Students?(Yes, number/No):

No

Grading: Study modules 0-5,P/F

Teachers: Anni-Kaisa Kähkönen

Note:

The number of participants is limited to 50. Students of Supply Management program have first priority to participate.

Year:

M.Sc. (Econ. & Bus. Adm.) 2

Period:

2

Teaching Language:

English

Teacher(s) in Charge:

Associate Professor, D.Sc. (Econ.& Bus.Adm.) Anni-Kaisa Kähkönen

Aims:

Upon completion of the course, students will know the main elements of supply strategies and be able to develop supply strategies in different contexts. Students will be able to analyze supplier relationships and will understand the role of supply management in value creation. Students will recognize and are able to utilize the main theoretical perspectives of supply management. After completing the course, students will be able to

1. analyze and categorize the supply base
2. develop and apply strategies for managing supplier relationships
3. understand the role of supplier networks and business relationships in value creation
4. apply and justify theoretical perspectives of supply management.

Contents:

The elements of supply strategy, supplier relationship management, value creation by utilizing an external supplier network. Theories of supply management.

Teaching Methods:

Lectures 8 h, simulation 3 h, class presentations 4 h. Preparation for lectures and simulation 7 h. Company case assignment, company interviews, written reports and preparation of presentations 60 h, 2nd period. Independent reading assignments, preparation for exam and written exam 78 h. Total workload for student 160 h.

Validity: 01.08.2014 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Mika Immonen, Jukka Hallikas

Note:

The number of participants is limited to 50. Students of Supply Management program have first priority to participate.

Own laptop is required during the lectures and Minitab software should be installed.

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

3

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Tech.) Jukka Hallikas

Associate Professor, D.Sc. (Econ.) Mika Immonen

Aims:

Upon completion of the course, students will be familiar with the methods of the development and improvement of supply chain processes by exploiting the Six Sigma and Lean principles. Students will be able to connect customer requirements to supply chain process design and analyze waste and risks related to business processes in supply chains. Students will also be able to exploit tools and methods related to supply chain business development and analytics.

Contents:

Lean and Six Sigma approaches in supply chain and service process development. Principles of creative problem solving in process development. Supply chain and value stream mapping. Customer needs analysis and linkage to the development work. Identification and elimination of waste in value chains and processes. Business process mapping and improvement. Process lead time analysis. Risk management of supply chain and business processes. Data analytics in supply chains.

Teaching Methods:

Lectures and workshops 14 h, independent reading assignments and preparation for lectures 28 h. Active participation for class discussions 14 h, 3rd period. Written assignments 42 h. Essay assignment including written essay and reading literature and articles 62 h, 4th period. Total workload for student 160 h.

Teacher(s) in Charge:

Professor, D.Sc. (Tech.) Veli Matti Virolainen

Aims:

Upon completion of the course, students will understand the strategic meaning of supply management and will be able to develop the supply function as part of the business development of an entire organization. Students will be able to apply TCE in supply strategy formulation, recognize different types of business relations, explain the motives of supply chain integration and partnerships, and apply these in practice. After taking the course, students should be able to:

1. develop and evaluate supply management strategies in a global context
2. analyze purchasing and supply management processes as a part of a business strategy
3. explain the motives for the integration of supply chains and business partnerships
4. distinguish the modes of collaboration in supply management
5. analyze different types of collaboration
6. apply transaction cost theory and game theory in strategy assessment
7. produce an analytical written report based on the current academic literature.

Contents:

Supply management as a source of competitive advantage. Purchasing and supply management as a part of a business strategy. Transaction cost theory and game theory. Different relationships with suppliers. Partnerships and their motives. Risk management related to partnerships. Value creation.

Teaching Methods:

Lectures 12 h, independent reading assignments and preparation for lectures 8 h, 1st period. Case assignments including written reports and class presentations. Writing of reports and preparation for presentations 30 h, 1st period. Independent literature review and reading the literature and articles 50 h, 1-2 period. Quiz tests and preparation for quiz tests 60 h. Total workload for student 160 h.

Grading: Study modules 0-5,P/F

Teachers: Veli Virolainen

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

4

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc, (Tech.) Veli Matti Virolainen

Aims:

The aim of the course is to familiarize students with the financial issues of supply management, total cost thinking, and cost assessment in supply chains. During the course the students apply methods and tools of working capital and cost assessment in hands-on assignments. After completing the course able to do

- financial analysis in supply chains
- manage working capital and its elements
- evaluate the cost factors in supply decisions
- apply tools and methods and applications in cost management
- utilize cost information in decision making in supply chains

Contents:

Financial supply management. Cost assessment in supply chains. Tools, methods and applications of cost assessment. Decision making in supply chain. The impact of cash flow on working capital management and the financial performance of a business.

Teaching Methods:

Lectures 8 h, independent reading assignments and preparation for lectures 12 h. Assignments including written reports 20 h. Independent literature review and reading the literature and articles 60 h, quiz tests and preparation for quiz tests 60 h. Total workload for student 160 h. Moodle is used in this course.

A310A0501: Sustainable Global Sourcing, 6 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Katrina Lintukangas

Note:

Replaces the course A310A0500 Global sourcing and sub-contracting. Can't be included in the same degree as A310A0500 Global sourcing and sub-contracting.

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

2

Teaching Language:

English

Teacher(s) in Charge:

Associate Professor, D.Sc. (Econ & Bus. Adm.) Katrina Lintukangas

Aims:

The aim of the course is to familiarize students with the strategic planning of global sourcing and the management of global supply networks and the execution of supply strategies in globally active firms. After taking the course, students should be able to

- identify and generate global sourcing strategies
- recognize the risks and challenges of global sourcing
- analyse multinational business environments
- assess the outsourcing, sub-contracting, technology and production transfer opportunities, challenges and sustainability in supply chains
- develop supplier relationship management and supplier selection and assessment tools and methods.

Contents:

Global sourcing strategies, opportunities and challenges. Sustainability in global supply networks and the transparency of supply chains. Outsourcing and subcontracting, technology and production transfer. Supplier selection and assessment, relationship management, collaboration and partnerships in global supply networks.

Teaching Methods:

Interactive lectures 8 h, seminar and presentations of group assignments, written report, independent reading assignments 8 h. Written exam, 2nd period. Preparing for lectures 10 h, preparation of the group assignment, presentations and written report 64 h, preparation for the exam 70 h. Total workload 160 h.

A310A0330: Managing Service Business in Supply Chains, 6 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Jukka Hallikas, Mikko Pynnönen

Note:

The number of participants is limited to 50. Students of Supply Management program have first priority to participate.

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

4

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Tech.) Jukka Hallikas

Associate Professor, D.Sc. (Econ. & Bus. Adm.) Mikko Pynnönen

Aims:

Upon completion of the course, students should be able to classify the services based on the characteristics of service business models. Students are able to map the service design and evaluate the customer value elements and quality of services in supply chains. They are also able to evaluate the capabilities and resources needed in the service business and map service business processes. Students are able to design new service concepts and are familiar with the process of service innovation. Students are familiarized with the special features of service supply chains and purchasing.

Contents:

Characteristics of service, business models and strategies of service business, resources and capabilities embedded to the service business, collaborative service production, service innovation, service quality and measurement, development of service business processes, service descriptions. Digital platforms and technologies in service processes.

A310A0760: Green Logistics, 3 cp**Validity:** 01.08.2017 -**Form of study:** Basic studies**Type:** Course**Unit:** LUT School of Business and Management**Grading:** Study modules 0-5,P/F**Teachers:** Pietro Evangelista, Sirpa Multaharju**Note:**

Can't be included in the same degree as A310A0750 Logistics outsourcing and innovation.

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

intensive week 43, 23.-27.10.2017

Teaching Language:

English

Teacher(s) in Charge:

Post Doctoral Researcher, D.Sc. (Econ & Bus. Adm.) Sirpa Multaharju

Adjunct Professor, D.Sc. Pietro Evangelista

Aims:

The main aim of the course is to transfer to the students the knowledge about key green logistics management principles and practice. Particular emphasis will be given to the changing role of logistics service providers in the supply chain and the importance assumed by environmental sustainability in their business models and strategies. By the end of the module, the students will be able to show a critical understanding of: the basic principles of logistics and SCM, identify and analyse major evolving trends in logistics and SCM, recognise different type of logistics service providers and assess their development stage, explore benefits and challenges in implementing the principles of green logistics, analyse the role of environmental sustainability in the strategy of logistics service providers, define and implement a green logistics auditing plan, identify a decarbonization strategy for logistics.

Contents:

- Foundation concepts of logistics and SCM
- Evolving trends in logistics and SCM

- The importance of logistics outsourcing
- Main changes affecting the logistics service industry
- The environmental impact of transport and logistics
- Principles of green logistics management
- Environmental sustainability in the strategy of logistics service providers
- Green logistics auditing plan,
- Decarbonization strategy for logistics

Teaching Methods:

16 hours of lectures, 16 hours for preparing to the lectures and 48 hours for preparing for the exam, total workload 80 h. Moodle is used in this course. Written exam 100%.

A350A0111: Strategy Project, 6 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Lasse Torkkeli, Hanna Salojärvi

Note:

Replaces course A350A0110 Project course on Strategy and Business Models

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

3-4

Teaching Language:

English

Teacher(s) in Charge:

Associate Professor, D.Sc. (Econ. & Bus. Adm.) Hanna Salojärvi
Associate Professor, D. Sc. (Econ. & Bus. Adm.) Lasse Torkkeli

Aims:

Learning outcomes:

1. To recognize the most commonly used strategic tools & frameworks.
2. To analyse the real-life situation and context of a given case organisation.
3. To select appropriate strategy tools and frameworks for the given case problem.
4. To apply the frameworks and tools of strategy and business models to provide a justified and concrete plan of action.
5. To be able to collaborate in teams.
6. To be able to carry out a project work in a given time-line.
7. To outline a professional written project report.
8. To communicate the findings and recommendations in a convincing, professional way.

Contents:

This course applies problem-based learning to a concrete strategy development task from a real case organization. Students work in groups with the given project that starts with a situational analysis and continues with both strategy development and business model description activities, resulting in a concrete strategic action plan for the organization. Each group gets individual coaching from a project supervisor. The course is organized in cooperation with Green Campus Innovations.

Teaching Methods:

21 h of pre-work in groups: returning a strategy tool -related presentation in Moodle, 8 hours of introductory seminar,
16 hours of seminars including final presentations of the projects to the representatives of the case organisations,
7 h of project coaching meetings with the project supervisor, Independent project work in teams: 100 h (finding literature, group meetings, Information gathering, analysis, writing the report) Written final report,
presentation of the project work (preparation 8 h). Total student workload: 160 h.

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

No

Examination in Exam (Yes/No):

No

Assessment:

Grade 0-5, evaluation 0-100 points. Strategy tool pre-assignment: pass/fail. Max 100 points from project work. Grading of projects: 70 % supervisors, 30 % firm representative.

Course Materials:

Handout materials. Other material depending on the project work.

Limitation for students? (Yes, number, priorities/Leave empty):

Yes, 80. Priority is given to LUT M.Sc. level students in business administration.

A350A0601: Contemporary Issues in Strategic Management and Innovation, 6 cp

Validity: 01.08.2015 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Paavo Ritala, Henri Inkinen

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

3

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Econ. & Bus. Adm.) Paavo Ritala

Post-doctoral Researcher, (D.Sc. (Econ. & Bus. Adm.) Henri Inkinen

Aims:

This course focuses on the topical phenomena and concepts related to strategic management and innovation, which will be investigated from different viewpoints of academic research and business practice. Students will learn to assess, debate and synthesize the recent literature and examine the links of contemporary topics to previous research.

The learning outcomes of the course are the following:

- 1.To assess and synthesize the contemporary concepts in strategic management and innovation.
- 2.To discuss and debate on specific topics of the course.

Contents:

The specific content of the course is based on current topics of strategic management and innovation, such as sustainable strategy, crowdsourcing, crowdfunding, digital platforms, artificial intelligence, business model innovation and business ecosystems. The course syllabus with detailed contents will be distributed in the beginning of the course. The course will utilize online methods and tools for student-driven content creation and discussion. The course will be conducted virtually within the 3. period, and is concluded with a live panel discussion session.

Teaching Methods:

3. period, virtual course + final panel discussion, Independent familiarization with literature 36 h, Independent content production 60 h. Online work: blog-thread moderation, commentary and discussion, 60 h. Panel discussion 4 h. Total hours: 160 h.

A210A0702: New Venture Management, 6 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Antero Tervonen

Note:

The course is an advanced level course, but it can also be placed in bachelor´s studies. Course enrollment via WebOodi by 12.9.2017. Course is carried out in cooperation with several courses of Mechanical Engineering and Electrical Engineering Degree Programmes. The number of participants is limited to 30 (own quotas for Business Administration students and Industrial Engineering and Management students; the final selection is made mainly based on success in studies).

Year:

B.Sc. (Tech.) 2-3, B.Sc. (Econ. & Bus. Adm.) 2-3, M.Sc. (Tech.) 1-2, M.Sc. (Econ. & Bus. Adm.) 1-2

Period:

1-4

Teaching Language:

English

Teacher(s) in Charge:

University Lecturer, D.Sc. (Tech.) Antero Tervonen

Aims:

By the end of the course, students will be able to

- apply the skills and knowledge accumulated from previous courses into practice,
- plan and manage implementation of different business operations,
- manage and organize business as a whole and act as a manager,
- create various business and management documents and reports,
- communicate issues about the project with other firm members.

Contents:

Recruited business experts together with engineering experts (= mainly mechanical engineering students) form virtual firms (= small groups) with 10-20 individuals and develop elements of business activity around their product idea.

The entire staff of the firm is self-organized and takes care of the establishment of the virtual firm.

Business experts formulate a business plan and financial plan in cooperation with engineering experts of the firm. The tasks of business experts also include planning of various business activities, implementing those activities and reporting: management, financial management, cost accounting, budgeting, finance, marketing, supply chain management and logistics in cooperation with product planning and manufacturing.

The board (= the teachers of different accompanied courses and a business mentor outside the university) supports firm operations. As the operations proceed (= during the academic year) several board meetings (= steering meetings) will be arranged. The goal is that the firms will have a real prototype of their product idea ready by the end of the first year of operations.

Teaching Methods:

Board steering sessions (= introductory lectures) 2 h, 1st period. Board steering sessions 6 h and the board meetings 3 h, 2nd period. Board steering sessions 2 h and the board meetings 4 h, 3rd period. Board steering sessions 2 h and the board meetings 2 h, 4th period. Independent project work by the staff of the virtual firm (the staff mainly defines working schedules, practices and responsibilities by itself) 139 h, 1st-4th periods. Total workload 160 h.

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

No

Examination in Exam (Yes/No):

No

Assessment:

Grade 0-5, evaluation 0-100 points; project work 80 % (includes internal activities of the virtual firm, different written assignments of the business experts and performance in board meetings), peer review by the members of the firm 20 %.

Course Materials:

Material of the steering occasions of the board (= lecture notes). Material sought by the staff of the virtual firm.

Prerequisites:

The basic studies of bachelor's degree in Business Administration or bachelor's degree in Industrial Engineering and Management

A365A0711: Accenture Case Workshop, 3 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Agnes Asemokha, Lasse Torkkeli

Note:

Maximum of 35 students, based on a pre-assignment. Teams are formed randomly at the beginning of the day. The best student groups will gain access to Accenture Apprentice network.

Year:

M.Sc. (Tech.) 1, M.Sc. (Econ. & Bus. Adm.) 1

Period:

Intensive week 9

Teaching Language:

English

Teacher(s) in Charge:

Associate Professor, D.Sc. (Econ. & Bus. Adm.) Lasse Torkkeli
MSc. (Econ. & Bus. Adm.) Agnes Asemokha

Aims:

After completing the course, the student will have the ability to apply case methodology (issue based problem solving) used by Accenture, in order to analyze real-life business cases, to evaluate possible solutions to strategic and managerial challenges, and to create professional presentations of the solution. The learning outcomes of the course are the following:

1. To identify the different stages of issue based problem solving case methodology
2. To apply the case methodology in practice to analyze problems
3. To deduce meaningful implications from real-life case issues
4. To construct a written summary of a methodology textbook
5. To organize a multi-cultural group in order to analyze a case problem in a brief amount of time
6. To evaluate possible solutions to a case problem.
7. To create a and present a professional consulting presentation
8. To argue for and to defend consulting recommendations to professional consultants
9. To judge the importance of sustainability in business management through case methodology.

Contents:

Issue based problem solving methodology, strategic decision-making, application of frameworks, presentation skills and group work

Teaching Methods:

8 hours of interactive seminars, intensive week 9. Preparation for workshop 18 h, 8 hours of interactive seminars. Written assignments 54 h. Total workload for student 80 h.

A330A0550: Essential Sales and Negotiation Skills, 3 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Olli Kuivalainen, Peter Spier

Note:

The course is an intensive course taught by an international visiting professor. The number of students attending the course may have to be limited if the number of students exceeds 40. In registration, priority is given to LUT School of Business and Management, MIMM Programme students. The course will be lectured every other year, next during the academic year 2018-2019.

Lectured every other academic year (Yes, next realization year/Leave empty):

Yes, 2018-19

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

4

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Econ. & Bus. Adm.) Olli Kuivalainen
Visiting Professor Peter Spier

Aims:

After completing the course the students should be able:

- To understand how sales and other types of business negotiations work
- To distinguish, compare and organize various types of sales and negotiation situations
- To know how to make things happen in sales and negotiations
- To develop sales and negotiation-related core competencies
- To be able to negotiate effectively

Contents:

This course provides a comprehensive introduction to sales and negotiation. It will cover a range of topics, that aim to:

- Structure our thinking about sales and negotiation
- Help us analyze individual negotiation styles
- Distinguish different types of sales and negotiation situation
- Discover the mutual gains approach in negotiation
- Understand the main sales techniques: transactional, relationship selling, solution selling, challenger sales
- Move from an approach based on 'convincing' to one based on 'persuasion'
- Broaden the scope of our approach to include: 'other' (interests, culture...), situation...
- Understand the importance of 'people' skills: empathy, trust, active listening...
- Think about communication, both verbal and non-verbal
- Develop the use of enquiry & questioning
- Develop the use of framing techniques and other 'nudge' approaches
- Manage conflict
- Think about how we interact with others

Teaching Methods:

The course will balance theory and practical application, with considerable use of case studies and student project work. 30 h of interactive lectures and cases, 4rd period (intensive format). 50 h of preparation for lectures and assignments and individual research report

Validity: 01.08.2017 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Joono Keränen, Hanna Salojärvi, Asta Salmi

Note:

New course. Will replace CS10A0152 International Business Networks, CS10A0151 Business Relationships and Networks and A330A0050 Customer Relationship Management.

Year:

M.Sc. (Econ. & Bus. Adm.) 1, M.Sc. (Tech.) 1

Period:

3

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Econ. & Bus. Adm.) Asta Salmi

Associate Professor, D. Sc. (Econ. & Bus. Adm.) Hanna Salojärvi

Aims:

After completing the course the students are familiar with the theories of relationship marketing and network management, related concepts and models. The course provides the participants tools for understanding business relationships and networks, the strategic behavior of firms in this environment, and the managerial capabilities involved. The strong theoretical basis is combined with current relationship and network management material and implications.

On successful completion of the course, students: 1. Know the key theoretical frameworks related to business relationships and networks, and understand the principles of relationship marketing theory 2. Are familiar with customer relationship management as an organization wide strategic approach to managing customer relationships, 3. Are able to critically analyze the customer base, evaluate

performance of customer relationships, and apply various strategies for managing customer relationships, 4. Understand the drivers of customer value and are able to design sustainable customer value propositions. 5. Identify the challenges of cross-sectoral and cross-national networks, 6. Understand and are able to evaluate the features of eco-industrial and sustainable business networks, and sustainable supply chains, and contemporary challenges in managing them, 7. Have developed skills in teamwork, in active participation in discussions, in oral presentations, in writing reports, as well as in reflecting on and taking the responsibility for their own learning.

Contents:

The course focuses on the following main contents: Theoretical approaches to inter-organizational relationships and business networks. Strategic management of customer relationships, B2B marketing, customer value and value-based selling. Supplier relationships and sustainable supply chains. Challenges and management of cross-sectoral networks. Sustainable and eco-industrial networks and challenges of managing them.

Teaching Methods:

Lectures, assignments including reflection papers and learning diary, case studies. Active participation in class is required.

In class hours (34 hours): 26 hours of lectures and 8 hours of case study workshops.

Out-class hours: Preparation for lectures 10 h, individual reflection papers and learning diary 80 h, preparation for case studies 36 h. Total workload 160 hours.

Number of students attending is limited to 120 students. Priority is given to LBM degree students.

Places for exchange-students? (Yes, number/No):

Yes, 1-5, if they fit within the total number of 120 students after accepting LBM degree students.

Places for Open University Students?(Yes, number/No):

This course has 1-5 places for open university students. More information on the web site for open university instructions

A130A2200: Internship for Master's Programmes, 2 - 6 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Note:

This course concerns students in MIMM, MSF, MSIS and MSM master's programmes. Registration for the course directly to the teacher any time during the academic year but before the planned practical training. The instructions for the training are given by the teacher. NB! Bachelor's and Master's degrees can include a total of 12 credits of practical training. The student can divide the credits in both of the degrees or the training can be included in its entirety in one of the degrees. However, in Master's degrees, maximum of 6 ECTS credit are acceptable as electives in core studies, and extra ECTS credits can be accepted in electives in Master's degrees. The student is free to find a suitable company / organization of his/her choice. The planned internship (organization, time, content, tasks) needs to be agreed by the internship coordinator in advance. It is advisable that Master's programmes' students would have an international element in their internships. Only the internship, which the student does during his/her studies at LUT, is acceptable.

The internship can be accepted only if the working hours are an average of 10 hours per week.

Student cannot apply for credits both for internship and for Project Work Course (A130A1000) from the same practical training.

English

Teacher(s) in Charge:

Please see UNI-portal: <https://uni.lut.fi/en/web/lut.fi-eng/internship> (UNI-portal > Degree Programmes > Business Administration > Instructions > Internship).

Aims:

The aim of the internship for Master's Programmes is to provide the students an opportunity to put their theoretical knowledge into practice, and to build networks in the job market. The student applies the knowledge learned in the university studies to complete the work tasks in a target organization. The student also develops skills in order to apply knowledge in his/her future career. In addition, the student gains new experience-based knowledge that can be utilized in studies, for example in assignments and in Master's Thesis.

Contents:

Applying previously learned knowledge, Gaining experience-based knowledge, Writing a report.

Teaching Methods:

The practical training period in the target company 4 – 12 weeks, writing of the report (2-3 pages). Periods 1 – 4. Total workload in study hours 52 – 160 h (in work hours 160 – 480 h). See UNI-portal for instructions and further information: UNI-portal > Degree Programmes > Business Administration > Instructions > Internship.

Assessment:

Accepted / failed, report 100%.

Course Materials:

See UNI-portal for instructions: UNI > Degree Programmes > Business Administration > Instructions > Internship.

Prerequisites:

Bachelor's studies. For MIMM students: A330A0300 Strategic Global Marketing Management; A330A0251 Internationalization of the Firm; A350A0300 Technology and Innovation Management. For MSF students: A220A0200 International Financial Management; A220A0650 Financial Theory and Valuation; A220A0101 Derivatives and Financial Risk Management. For MSM students: A310A0101 Strategic Supply Management

A380A0130: Business relationships in international value networks, 6 cp

Validity: 01.08.2017 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Anni-Kaisa Kähkönen, Terhi Tuominen

Year:

B.Sc. (Econ. & Bus. Adm.) 3

Period:

1

Teaching Language:

Finnish

Teacher(s) in Charge:

Associate Professor, D.Sc. (Econ. & Bus. Adm.) Anni-Kaisa Kähkönen

Aims:

The aim of the course is to familiarize students with different business relationships in value networks, with the management of relationships and networks, and the characteristics of international business relationships and collaborative networks.

Upon completion the course students are able to

- understand the main concepts and theoretical backgrounds of collaboration and networks
- analyze the benefits and challenges of relationships and networks
- recognize and understand the characteristics of value networks
- define supplier and customer relationships
- participate to the development of relationships.

Contents:

The concepts and theories of collaboration and networking, characteristics of value networks, the benefits and challenges of collaboration, managing of collaboration and networks, vertical and horizontal collaboration, the management of supplier relationships and customer relationships. Case assignment, visiting lecturer from company.

Teaching Methods:

Lectures 14 h, independent reading assignments and preparation for lectures 14 h, pre-assignments for lectures and writing the written reports 22 h. Case assignment including written reports and class presentations, 55 h. Exam and preparation for exam 55 h, 1 period. Total workload for student 160 h.

Period:

4

Teaching Language:

English

Teacher(s) in Charge:

Associate Professor, D.Sc. (Econ. & Bus. Adm.) Anssi Tarkiainen

Doctoral Student, M.Sc. (Econ. & Bus. Adm.) Tommi Rissanen

Aims:

After completing the course the student will understand how marketing communication (MC) and sales management (SM) are planned and implemented in an organization. This course will pay special emphasis on understanding the linkages between marketing communication and sales, and the challenges in their integrated management. The learning outcomes of the course are the following:

- to understand the role of MC and SM in marketing strategy
- to assess the usability of different forms of communication with regard to buyer behavior
- to be able to design, implement and manage marketing communication as part of the marketing process
- to be able to design, implement and manage sales as part of the marketing process
- to assess the challenges of integrating MC and sales management strategies
- to evaluate the effectiveness of MC and sales
- to recognize the ethical issues of promotion and sales management

Contents:

The role of marketing communication (MC) and sales management in marketing strategy. The role of buyer behavior and its effects on the nature of communication (mass vs interactive/personal). MC strategy process, message and media strategy. Media planning and characteristics of different media. Sales process and selling typologies. Responsibilities and tasks of sales management. Online marketing and selling. Strategic planning process of MC and sales; challenges of integrating MC and sales management strategies. Evaluation and ethics of promotion and sales management. The advertiser-agency relationship. The services in marketing communications campaign planning.

Teaching Methods:

Lectures 21 h 4. period. Exercises 15 h 4. period. Preparation for exercises 58 h (including written work) and preparation for the exam 66 h. Written exam. Total workload for student 160 h.

Teacher(s) in Charge:

D.Sc. (Tech.) Jari Varis

D.Sc. (Econ. & Bus. Adm.) Sirpa Multaharju

Aims:

The aim of the course is to provide the students with the knowledge of most central issues of firms' exporting and importing functions. After completion of the course the students should be able to:

- identify and describe various export and import modes.
- explain the functions of exporting and importing in a company.
- analyze the export and import readiness of a chosen company in practice. E.g. be able to compare skills needed for international market entry.
- identify and select the most suitable payment and transportation methods in a given export/import situation.
- name the most common documentation related to export/import operations.
- identify the most important organizations for export/import assistance.
- identify the basic theories of international trade.
- conduct project work in teams regarding export/import related matters.

Contents:

Exporting and importing as concepts and various modes of exporting and importing; exporting and importing as a part of firm's operations; exporting, importing and marketing functions of the firm, export / import readiness, export / import planning and implementation; payment methods in international trade, international trade theories and Finnish foreign trade. Required documents related to exporting and importing, Sources of information for exporting. Real life examples of exporting and importing practices in various companies (group assignments).

Teaching Methods:

Lectures (18 h), exercises (8 h), 1st period. Group assignment given on the lectures, 1st period. Compulsory written exam. Total workload for student 160 h.

Year:

M.Sc. (Tech.) 1

Period:

1

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Tech.) Marko Torkkeli

Aims:

Managing in a knowledge-based economy, Managing by Core Competences, Knowledge intensive firms, Uncertainty. Are they the latest buzz words or another passing managerial fad? Old wine in new bottles? Or perhaps, just perhaps, a fundamental means of survival and success for modern day corporations? Given the amount of effort that has been devoted to the topic by both academics and practitioners, it appears worth taking a deep and dispassionate look at the role of entrepreneurial thinking in sustained

competitive advantage. The goal is to learn as you go and effectively convert assumptions to knowledge at a low cost. During the course students learn to develop and test a business idea following the discovery driven planning steps as well as using the uncertainty management tools of Attribute Mapping, Supply Chain Analysis, Differentiation, Quizzing and Market-Busters. The course does not teach business plan writing but rather focuses on opportunity recognition and feasibility assessment. Moreover, it adds the elements of lean and guerilla marketing as well as social entrepreneurship as possible avenues in dealing with entrepreneurial challenges.

Contents:

During the course students learn to develop and test a business idea following the feasibility analysis, discovery driven planning steps as well as using the uncertainty management tools of Attribute Mapping, Supply Chain Analysis, Differentiation, Quizzing and Market-Busters. CS34A0551: Business Idea Development, 6 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Timo Pihkala, Suvi Konsti-Laakso

Year:

M.Sc. (Tech.) 1

Period:

2

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Econ. & Bus. Adm.) Timo Pihkala

Aims:

Student can describe and explain key theoretical approaches associated to business idea development. The student learns to identify, develop and assess business opportunities and ideas. The student is familiar with and can apply different systematical tools and techniques related to business idea development.

Contents:

Core content: fuzzy-front end of entrepreneurial process, opportunity recognition, sources of business ideas, systemic generation of ideas; business idea related methods, structures and environments.

Supplementary content: innovation and creativity

Specific content: customer-oriented thinking

Teaching Methods:

Lectures 16 h. Learning diary and assignments 80 h. Written group assignment 60 h. In total 156 h.

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

No

Examination in Exam (Yes/No):

No

Assessment:

Grades 0-5, Learning diary (60%) and group work and presentation (40)%.

Course Materials:

Study materials include article package and it will be announced later.

Places for Open University Students?(Yes, number/No):

This course has 15- places for open university students. More information on the web site for open university instructions.

A330A5101SS: Creativity and Entrepreneurship in New Product Development from Silicon Valley's Perspectives, 3 cp

Validity: 01.06.2015 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Olli Kuivalainen

Note:

The course topics are related to sustainable development.

Year:

M.Sc. 1-2

LUT Summer School time:

17.-21.7.2017

Teaching Language:

English

Teacher(s) in Charge:

Professor D.Sc. (Econ.) Olli Kuivalainen, LUT

Aims:

Learning outcomes:

- To understand important elements of marketing strategy that is related to product management.
- To develop an in-depth understanding of new product/service development and management.
- To understand and utilise a process-oriented framework for making new product/service development decisions.
- To enhance business communication skills through preparation and presentation of new concepts for products and services via prototyping as well as its marketing plan.

Contents:

This course is designed to explore two critical business topics related to product management strategy in marketing:

- the design and development of new ideas for product/service innovations
- the management of new and existing products and services for sustainable business.

First, topics in new product development include idea generation and screening, design, planning, and prototyping, and new product roll-out, as well as the development of marketing strategies and implementation plans for new products and services.

Second, management of new and existing products involves in integration of new products into the product line, management of the marketing mix, quality of service, and customer development strategies. Throughout this project-based course, the importance of creativity, innovation and entrepreneurship will be emphasised as the sources of initiating and managing new products and innovation.

Teaching Methods:

- Lectures and in-class learning activities and assignments 28 hours
 - Preparation for lectures and assignment 30 hours
 - Preparation for the exam, and exam 22 hours
- Total workload 80 hours.

Assessment:

Final grade 0-5. Evaluation 0-100 points:

- Final exam 30 points
- Group project 20 points
- In-class projects 5 points
- Group case studies 10 points
- Individual projects 20 points
- Class-participation 15 points

Course Materials:

- Main Textbook: C. Merle Crawford and C. Anthony Di Benedetto, New Products Management, 10th ed. Irwin McGraw-Hill.
- The additional reading materials from academic and business press articles (i.e., case, magazine, newspaper, and journal articles) will be distributed through the class time prior to the class discussion.

Prerequisites:

Previous studies in marketing recommended.

CS30A1691: Social Sustainability, 6 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Suvi Konsti-Laakso, Helinä Melkas, Satu Pekkarinen, Suvi-Jonna Martikainen, Rakhshanda Khan

Year:

B.Sc. (Tech.) 3

Period:

4

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Tech.) Helinä Melkas

Aims:

The student learns to understand the significance and meaning of social sustainability in development of business, organization as well as product and service processes. This aim is approached by looking into the theme both from theoretical and practice-based viewpoints. The student gains insight into the kinds of tools and methods that enable social sustainability to become part of business, management as well as product and service development. The student recognizes appropriate situations for applying these methods, and gains elements for critical thinking.

Contents:

Core content: social sustainability at different levels (global, societal and organizational), social innovation, frugal innovation, social enterprise, end-user involvement, employee involvement, human impact assessment
Supplementary content: practical cases, methods and Living Lab activities

Teaching Methods:

Lectures (intensive teaching) and small group assignments during the lectures 5 h; case exercise to be given during the lectures 60 h; independent and/or group studies 66 h; presentation of case exercises in a closing seminar 10 h; personal learning diary 15 h = total 156 h.

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

No

Examination in Exam (Yes/No):

No

Assessment:

0 - 5. Case exercise 70%, learning diary 30%.

Course Materials:

The study materials consist of course slides and selected articles (will be announced later).

Period:

3

Teaching Language:

Finnish

Teacher(s) in Charge:

Associate Professor, D.Sc. (Econ. & Bus. Adm.) Heli Arminen
Associate Professor, D.Sc. (Econ. & Bus. Adm.) Anni Tuppuru

Aims:

By the end of the course, students will be able to explain what kind of assumptions and practices form the basis of regression analysis. Students can interpret and evaluate the results based on regression analysis. Students will be able to specify econometric models and estimate the parameters of the models with cross-section, time series, and panel data. Moreover, students will be able to evaluate critically the estimated model and methodology, as well as the reliability of the conclusions based on the model. Students will recognise that there are various estimation methods, and are able to explain what kind of method is suitable in a certain situation (and, when necessary, are able to use a statistical test to find the appropriate method).

Contents:

Linear regression analysis and hypothesis testing. The use of SAS Enterprise Guide software and interpreting SAS output. Non-linear models, qualitative dependent variables, simultaneous equations and instrumental variables. The use of time series and panel data. Prediction and basic assumptions.

Teaching Methods:

Lectures 21 h, exercises 18 h, preparation for lectures and exercises 30 h, course assignment and /or Moodle exercises 41 h, preparation for written exam and exam 50 h. Total workload for student 160 h.

M.Sc. (Tech.) 1

Period:

3

Teaching Language:

English

Teacher(s) in Charge:

Jozsef Mezei, D.Sc., Research Fellow

Aims:

The main goal of the course is to introduce the students to the statistical computing environment R as a tool for business analytics. In the course, students will explore the fundamentals of the R language fundamentals, with the main focus on understanding how to utilize it to perform data analysis. The course will make extensive use of real life datasets to illustrate the various features of R. After the completion of the course, the students: know how to work with data in R; understand the main tasks and applications of data science; create and customize visualization in R; know how to perform descriptive analytics in R; can create functions and implement basic methods; know how to perform predictive analytics using R.

Contents:

Core content: basics of data analysis with R; R as a data analysis environment for business analytics problems; performing descriptive and predictive analytics using R

Additional content: R as a programming environment for data science

Special content: role of visualization in business analytics

Teaching Methods:

Introduction to R completed with online platform studies (10 h). Programming with R for Data Science (50 h).

10 h of computer room tutorials. Reading and practicing additional material 20 h. Course project on performing data analysis 70 hours. Total workload for the student 160 h.

CS38A0045: Marketing analytics for Business students, 6 cp

Validity: 01.08.2017 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Jozsef Mezei

Year:

M.Sc. (Tech.) 1

Period:

4

Teaching Language:

English

Teacher(s) in Charge:

Jozsef Mezei, D.Sc., Research Fellow

Aims:

The aim of the course is to offer extensive knowledge on the use of various analytical techniques in marketing. The students will be introduced to the process of decision support in marketing using analytics in various typical problems. Through several practical examples, the course aims to provide the tools that focus on data understanding and preprocessing, modelling choices and implementation until the interpretation, visualization and utilization of the analysis in various marketing-related problems. The course will provide hands-on lectures to using the various methodologies in the R statistical computing environment, one of the most widely used analytics tools in modern organizations. After the course the students: have an understanding of the process of performing marketing analytics; know how to collect, understand and preprocess data to be used in marketing problems; know the most important applications and can identify the appropriate tool for a specific problem; are capable of performing marketing analytics using the R statistical environment; understand the role of big data in marketing.

Contents:

Core content: role of data in modern marketing, traditional methods (clustering, forecasting, market-basket analysis), machine learning-based methods in marketing (recommendation systems, advertising on the web)

Additional content: social network analysis, sentiment analysis

Special content: use of the introduced methods in R

Teaching Methods:

Lectures 20 h, computer room tutorials 10 hours, course assignments involving data analysis with R 75h. Written exam and preparation for the exam 55 h. Total workload for the student 160 h.

Examination in Examination schedule (Yes/No):

Yes

Examination in Moodle (Yes/No):

No

Examination in Exam (Yes/No):

No

Assessment:

Course assignments (50% of the grade), written examination (50% of the grade), grading pass/fail. The exam will be the same as for the "Marketing analytics" course. The assignments of this course cover a part of the other course's assignment.

Course Materials:

The course will largely be based on the free online book (<http://www.mmds.org/>)

Leskovec-Rajaraman-Ullman: Mining of Massive Datasets

Additional material will be distributed in the course.

Prerequisites:

The course will use the statistical software R, the LUT "Free analytics environment R" or equivalent background knowledge in R is required. Basic knowledge in statistics.

Limitation for students? (Yes, number, priorities/Leave empty):

Yes. 50, priority to MBAN students (Masters program in business analytics)

Places for exchange-students? (Yes, number/No):

No

Places for Open University Students?(Yes, number/No):

A210A0601: Information Systems in Corporate Management and Decision-making, 6 cp

Validity: 01.08.2014 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Mikael Collan

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

2

Teaching Language:

English

Teacher(s) in Charge:

professor, D.Sc. (Econ. & Bus. Adm.) Mikael Collan

Aims:

The aim of the course is to give extensive general knowledge about corporate information systems and how they are used in corporate decision-making, business control, and as a driver of business development. After the course the students: have an understanding of the corporate information systems stack and the most common types of corporate information systems and where they are used; are able to view a business as a system and its parts as parts of a system; know how information systems can collect, summarize, and analyze corporate information; understand what the practice of fact based management is based on and how it is connected to information systems; know the concept of intelligent systems, know selected methods and tools, understand the types of results that they can provide, and the importance of such results for, for example, making the business more effective through optimization; can identify situations where information systems can be used to develop business practices

Contents:

Core content: corporate information stack, business intelligence

Additional content : controlling in a modern corporation based on IS, intelligent systems in business process development, concepts of optimization, neural networks, simulation, and fuzzy logic

Special content: importance of visualizing knowledge

Teaching Methods:

Lectures 20 h, independent reading assignments (articles) and preparation for lectures 55h. Written exam and preparation for the exam 85 h. Total workload for the student 160 h. Possibly an excursion.

Examination in Examination schedule (Yes/No):

Teaching Language:

English

Teacher(s) in Charge:

Post.Doctoral Researcher, D.Sc. (Tech) Samuli Kortelainen

Aims:

The importance of different kinds of analytics solutions has significantly risen during the last years in management. Novel analytics solutions have been shown to have significant financial impact by either increasing the efficiency of the company or by even creating totally new business possibilities. This course aims to introduce students to the present capabilities and future possibilities of computational business analytics tools. After this course student will know:

- How to integrate analytics to strategic and operational management of a firm
- Possibilities and limitations of different kinds of computational analytics methods in business management

Contents:

1. Processes and routines necessary for data based business management a. Importance of organizational different kinds of organizational routines b. Different data sources in digitalization age i. Firm's internal data sources ii. Internet & Big data analytics iii. Internet of things (IoT) 2. Different levels in management of firm's business environment a. Individual (customers / firms) b. Network (Network between customers / firms) c. System level analysis (e.g. ecosystems) 3. Possibilities created by computational analysis methods in business management a. Possibilities created by network analysis b. Possibilities created by machine learning c. Possibilities in simulation modelling

Teaching Methods:

Virtual on-line lectures and individual work 16 h.
 On site lectures 6 h.

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Jozsef Mezei

Note:

Lectured first time in academic year 2018-19.

Year:

M.Sc. (Tech.) 2

Period:

1

Teaching Language:

English

Teacher(s) in Charge:

Jozsef Mezei, D.Sc., Research Fellow

Aims:

The course discusses the most important new tools for understanding the potential impact of big data analytics on decision making and business performance. Through analyzing typical business decision problems from the perspective of data requirements, the course discusses the role of big data analytics in modern organizations. After the completion of the course, the students: know the most important technological requirements of performing big data analytics; understand the role of big data in transforming modern organizations through data driven decision making; understand the impact of data volume, variety, and velocity; understand how to create value with big data; become familiar with the techniques and tools for capturing, processing, and interpreting big data; know the most important

methods to reduce big data sets by extracting the most important information; are familiar with several real-world scenarios of big data use from different business sectors; understand the role of big data in creating business value; know how to apply the discussed concepts and tools to business projects.

Contents:

Core content: big data technology; data and dimension reduction; role of data driven decision making in modern organizations

Additional content: machine learning methods for big data analytics; network analysis

Special content: text analytics

Teaching Methods:

Lectures 20 h, computer room tutorials 10 hours, course assignments involving big data analysis with R 75 h. Written exam and preparation for the exam 55 h. Total workload for the student 160 h.

1-2

Teaching Language:

English

Teacher(s) in Charge:

Professor, Ph.D. Andrzej Kraslawski

Aims:

Learning outcomes: After fulfilling all requirements of the course, the students will be able to: 1. Understand the principles of creative problem solving 2. Know the basic methods of creative design 3. Work in team during the design process 4. Apply methods of creative design to products, processes, services and business methods

Contents:

The major subjects of the course are: Major Steps in Problem Solving Types of Problems Types of Design Concept of Creativity Survey of Intuitive and Structured Methods of Creativity Enhancement Types of Brainstorming Check lists Morphological analysis Syntectics Case-based Reasoning Graphical Methods Evaluation of Ideas

Teaching Methods:

The course is organised as a combination of regular lectures and interactive problem-solving sessions and project works. The in-class problem-solving sessions will be based on the team work realised by the groups of 3-5 students. The 3-4 project works will be realised by the groups of 3-4 students during the out-of-class activities and it will be finished with the preparation of the project report. In-class teaching and problem-solving sessions 42 h, project works 88 h. Total workload 130 h.

Lectures, in class activity, period 1.

Project work, out-of - class activity, period 2.

Project work 88 hours

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Suvi Konsti-Laakso, Helinä Melkas, Satu Pekkarinen, Suvi-Jonna Martikainen, Rakhshanda Khan

Year:

B.Sc. (Tech.) 3

Period:

4

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Tech.) Helinä Melkas

Aims:

The student learns to understand the significance and meaning of social sustainability in development of business, organization as well as product and service processes. This aim is approached by looking into the theme both from theoretical and practice-based viewpoints. The student gains insight into the kinds of tools and methods that enable social sustainability to become part of business, management as well as product and service development. The student recognizes appropriate situations for applying these methods, and gains elements for critical thinking.

Contents:

Core content: social sustainability at different levels (global, societal and organizational), social innovation, frugal innovation, social enterprise, end-user involvement, employee involvement, human impact assessment
 Supplementary content: practical cases, methods and Living Lab activities

Teaching Methods:

Lectures (intensive teaching) and small group assignments during the lectures 5 h; case exercise to be given during the lectures 60 h; independent and/or group studies 66 h; presentation of case exercises in a closing seminar 10 h; personal learning diary 15 h = total 156 h.

Teacher(s) in Charge:

Professor, D.Sc. (Tech.) Marko Torkkeli

Aims:

Managing in a knowledge-based economy, Managing by Core Competences, Knowledge intensive firms, Uncertainty. Are they the latest buzz words or another passing managerial fad? Old wine in new bottles? Or perhaps, just perhaps, a fundamental means of survival and success for modern day corporations? Given the amount of effort that has been devoted to the topic by both academics and practitioners, it appears worth taking a deep and dispassionate look at the role of entrepreneurial thinking in sustained competitive advantage. The goal is to learn as you go and effectively convert assumptions to knowledge at a low cost. During the course students learn to develop and test a business idea following the discovery driven planning steps as well as using the uncertainty management tools of Attribute Mapping, Supply Chain Analysis, Differentiation, Quizzing and Market-Busters. The course does not teach business plan writing but rather focuses on opportunity recognition and feasibility assessment. Moreover, it adds the elements of lean and guerilla marketing as well as social entrepreneurship as possible avenues in dealing with entrepreneurial challenges.

Contents:

During the course students learn to develop and test a business idea following the feasibility analysis, discovery driven planning steps as well as using the uncertainty management tools of Attribute Mapping, Supply Chain Analysis, Differentiation, Quizzing and Market-Busters. The course does not teach business plan writing but rather focuses on opportunity recognition and feasibility assessment. Moreover, it adds the elements of lean and guerilla marketing as well as social entrepreneurship as possible avenues in dealing with entrepreneurial challenges.

Validity: 01.06.2015 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Olli Kuivalainen

Note:

The course topics are related to sustainable development.

Year:

M.Sc. 1-2

LUT Summer School time:

17.-21.7.2017

Teaching Language:

English

Teacher(s) in Charge:

Professor D.Sc. (Econ.) Olli Kuivalainen, LUT

Aims:

Learning outcomes:

- To understand important elements of marketing strategy that is related to product management.
- To develop an in-depth understanding of new product/service development and management.
- To understand and utilise a process-oriented framework for making new product/service development decisions.
- To enhance business communication skills through preparation and presentation of new concepts for products and services via prototyping as well as its marketing plan.

Contents:

This course is designed to explore two critical business topics related to product management strategy in marketing:

- the design and development of new ideas for product/service innovations
- the management of new and existing products and services for sustainable business.

First, topics in new product development include idea generation and screening, design, planning, and prototyping, and new product roll-out, as well as the development of marketing strategies and implementation plans for new products and services.

Second, management of new and existing products involves in integration of new products into the product line, management of the marketing mix, quality of service, and customer development strategies. Throughout this project-based course, the importance of creativity, innovation and entrepreneurship will be emphasised as the sources of initiating and managing new products and innovation.

Teaching Methods:

- Lectures and in-class learning activities and assignments 28 hours
 - Preparation for lectures and assignment 30 hours
 - Preparation for the exam, and exam 22 hours
- Total workload 80 hours.

Assessment:

Final grade 0-5. Evaluation 0-100 points:

- Final exam 30 points
- Group project 20 points
- In-class projects 5 points

- Group case studies 10 points
- Individual projects 20 points
- Class-participation 15 points

Course Materials:

- Main Textbook: C. Merle Crawford and C. Anthony Di Benedetto, *New Products Management*, 10th ed. Irwin McGraw-Hill.
- The additional reading materials from academic and business press articles (i.e., case, magazine, newspaper, and journal articles) will be distributed through the class time prior to the class discussion.

Prerequisites:

Previous studies in marketing recommended.

KaSOMIntm: International Marketing, 24 - 35 cp

A330A0060: Managing Customer Relationships and Business Networks, 6 cp

Validity: 01.08.2017 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Joona Keränen, Hanna Salojärvi, Asta Salmi

Note:

New course. Will replace CS10A0152 International Business Networks, CS10A0151 Business Relationships and Networks and A330A0050 Customer Relationship Management.

Year:

M.Sc. (Econ. & Bus. Adm.) 1, M.Sc. (Tech.) 1

Period:

3

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Econ. & Bus. Adm.) Asta Salmi

Associate Professor, D. Sc. (Econ. & Bus. Adm.) Hanna Salojärvi

Aims:

After completing the course the students are familiar with the theories of relationship marketing and network management, related concepts and models. The course provides the participants tools for understanding business relationships and networks, the strategic behavior of firms in this environment, and the managerial capabilities involved. The strong theoretical basis is combined with current relationship and network management material and implications.

On successful completion of the course, students: 1. Know the key theoretical frameworks related to business relationships and networks, and understand the principles of relationship marketing theory 2. Are familiar with customer relationship management as an organization wide strategic approach to managing customer relationships, 3. Are able to critically analyze the customer base, evaluate performance of customer relationships, and apply various strategies for managing customer relationships, 4. Understand the drivers of customer value and are able to design sustainable customer value propositions. 5. Identify the challenges of cross-sectoral and cross-national networks, 6. Understand and are able to evaluate the features of eco-industrial and sustainable business networks, and sustainable supply chains, and contemporary challenges in managing them, 7. Have developed skills in teamwork, in active participation in discussions, in oral presentations, in writing reports, as well as in reflecting on and taking the responsibility for their own learning.

Contents:

The course focuses on the following main contents: Theoretical approaches to inter-organizational relationships and business networks. Strategic management of customer relationships, B2B marketing, customer value and value-based selling. Supplier relationships and sustainable supply chains. Challenges and management of cross-sectoral networks. Sustainable and eco-industrial networks and challenges of managing them.

Teaching Methods:

Lectures, assignments including reflection papers and learning diary, case studies. Active participation in class is required.

In class hours (34 hours): 26 hours of lectures and 8 hours of case study workshops.

Out-class hours: Preparation for lectures 10 h, individual reflection papers and learning diary 80 h, preparation for case studies 36 h. Total workload 160 hours.

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

No

Examination in Exam (Yes/No):

No

Assessment:

Grade 0-5, evaluation 0-100 points, Learning diary (including reflection papers) 70 % and case studies 30 %.

Course Materials:

Assigned readings (collection of articles). Lecture slides.

Prerequisites:

Basic knowledge of marketing. A330A0300 Strategic Global Marketing Management recommended.

Limitation for students? (Yes, number, priorities/Leave empty):

Number of students attending is limited to 120 students. Priority is given to LBM degree students.

Places for exchange-students? (Yes, number/No):

Yes, 1-5, if they fit within the total number of 120 students after accepting LBM degree students.

Places for Open University Students?(Yes, number/No):

This course has 1-5 places for open university students. More information on the web site for open university instructions

A330A0251: Internationalisation of the Firm, 6 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Juha Väättänen, Iustin Vadana, Maria Uzhegova, Sami Saarenketo, Anisur Faroque, Igor Laine

Note:

Interchangeable with CS10A0551 International Business Methods and A330A0250 Internationalization of the Firm and Global Marketing. Course will be lectured twice a year, in periods 2 and 3.

Year:

M.Sc. (Tech.) 1, M.Sc. (Econ. & Bus. Adm.) 1

Period:

2, 3

Teaching Language:

English

Teacher(s) in Charge:

Post-doctoral researcher, D.Sc. (Econ. & Bus. Adm.) Igor Laine (2nd period 2017)

Junior researcher, D.Sc. (Econ. & Bus. Adm.) Anisur Faroque (3rd period 2018)

Professor, D.Sc. (Econ. & Bus. Adm.) Sami Saarenketo

Professor, D.Sc. (Tech.) Juha Väättänen

Aims:

Learning outcomes: After completing the course the student will understand the processes of firm internationalization and global marketing. The learning outcomes of the course are the following:

1. To recognize the characteristics of the international market environment and of international business
2. To recognize the dimensions and drivers of market globalization
3. To assess and criticize the essential theories and frameworks of firm internationalization
4. To evaluate the ways in which international trade and investments affect world markets
5. To evaluate the risks and opportunities in global markets
6. To evaluate how to conduct sustainable international business
7. To analyze the key management decisions connected with the internationalization of the firm and

global marketing: Whether to internationalize, deciding which markets to enter, deciding how to enter the foreign market

8. To be able to collaborate in cross-cultural teams

9. To create and deliver a group presentation focusing on the internationalization decisions of a given company.

Contents:

Must know: International trade and investments, Drivers of globalization, Chain of strategic decisions related to internationalization of the firm, internationalization motives and barriers, Risks assessment in international markets, Internationalization theories (Uppsala model, Network approach, Born Global), international market selection process, factors influencing entry mode choice, characteristics of various entry modes (export modes, intermediate entry modes, hierarchical modes);

Should know: Global business relations and trade agreements, Concept of value chain in internationalization, comparison of SMEs and LSEs in internationalization and global marketing, environmental analysis in deciding which market to enter (political, economic, sociocultural, and technological environment);

Additional knowledge: Principles of transaction cost analysis.

Teaching Methods:

21 h lectures, 12 h exercises, 30 h written assignments, 30 h written report, 32 h course literature, 35 h self study and exam preparation. Total 160 h.

Examination in Examination schedule (Yes/No):

A330A0500: Brand Management, 3 cp

Validity: 01.08.2015 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Olli Kuivalainen, Peter Spier

Note:

The course is an intensive course taught by an international visiting professor. The course will be lectured every other year.

The number of students attending the course may have to be limited if the number of students exceeds 40. In registration, priority is given to LUT School of Business and Management, MIMM Programme students.

Lectured every other academic year (Yes, next realization year/Leave empty):

Yes, 2017-18

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

4, Intensive course. Provisional dates 16.4.-20.4.2018.

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Econ. & Bus. Adm.) Olli Kuivalainen

Aims:

The aim of the course is to familiarize students how companies manage 'brand equity', clearly a major strategic issue. Few would deny the importance of brands as valuable assets and a potential source of sustainable competitive advantage. Brands provide a short cut for customers when making a purchasing decision, seeking to avoid risk and obtain value for money. Brands provide a relevant, exciting experience. Brands connote a certain life style, values or attitude. Brands can become objects of affection: 'Lovemarks', even. Buying a brand is an integral part of an individual's quest for identity and meaning.

After completing the course the students should be able to:

- Understand how companies manage 'brand equity' and describe and assess different brand management strategies
- Analyze and explain reason, affect and decision-making related to brands
- Familiarize themselves with the social meaning and cultural rooting of brands
- Describe current trends and issues in branding
- To work in a multi-cultural team

- To write academic reports about branding
- To apply knowledge gained from the course, to the events, activities and/or strategies of an actual firm or organization

Contents:

This course provides a comprehensive introduction to strategic brand management, covering such areas as the building of brand equity, brand identity, brand extension, brand portfolios etc. in national, regional and global markets. Indicative and subject to change topics:

1. Introductory session - branding exercise. Brand basics.
2. Brand overview - Dyson: the man, the brand, the product, the market. Understanding codes, discourses and the potential for renewal and disruption. Sponges and hedgehogs. Mums, kids and washing liquid. The importance of consumer insight: Got milk? Fathers and whiskies
3. More about brands and how we relate to them: reason, affect and decision-making. Brand personality, brand archetypes. Brand endorsement and meaning transfer.
4. Branding people and experience. Service and experiential branding: Starbucks case study + the Apple Store
5. Brands in context. The social meaning of brands. What consumer studies and anthropology teach us.
6. A diamond is forever, beer is for men: the cultural rooting of brands. How brands become icons. Case study: Reviving an iconic brand – Levi's in the 80s
7. Brands & communities: Harley Davidson and Jones Soda. Tribal marketing & social networks.
8. Brand placement, brand content, brand events 9. Conclusion: current issues in branding

Teaching Methods:

The course will balance theory and practical application, with considerable use of case studies and student project work. 30 h of interactive lectures and cases, 4rd period (intensive format). 50 h of preparation for lectures and assignments and individual research report Moodle is used in this course.

Examination in Examination schedule (Yes/No):

Teachers: Lasse Torkkeli, Hanna Salojärvi

Note:

Replaces course A350A0110 Project course on Strategy and Business Models

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

3-4

Teaching Language:

English

Teacher(s) in Charge:

Associate Professor, D.Sc. (Econ. & Bus. Adm.) Hanna Salojärvi

Associate Professor, D. Sc. (Econ. & Bus. Adm.) Lasse Torkkeli

Aims:

Learning outcomes:

1. To recognize the most commonly used strategic tools & frameworks.
2. To analyse the real-life situation and context of a given case organisation.
3. To select appropriate strategy tools and frameworks for the given case problem.
4. To apply the frameworks and tools of strategy and business models to provide a justified and concrete plan of action.
5. To be able to collaborate in teams.
6. To be able to carry out a project work in a given time-line.
7. To outline a professional written project report.
8. To communicate the findings and recommendations in a convincing, professional way.

Contents:

This course applies problem-based learning to a concrete strategy development task from a real case organization. Students work in groups with the given project that starts with a situational analysis and continues with both strategy development and business model description activities, resulting in a concrete strategic action plan for the organization. Each group gets individual coaching from a project supervisor. The course is organized in cooperation with Green Campus Innovations.

Teaching Methods:

21 h of pre-work in groups: returning a strategy tool –related presentation in Moodle, 8 hours of introductory seminar, 16 hours of seminars including final presentations of the projects to the representatives of the case organisations,

7 h of project coaching meetings with the project supervisor, Independent project work in teams: 100 h (finding literature, group meetings, Information gathering, analysis, writing the report) Written final report, presentation of the project work (preparation 8 h). Total student workload: 160 h.

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

No

Examination in Exam (Yes/No):

No

Assessment:

Grade 0-5, evaluation 0-100 points. Strategy tool pre-assignment: pass/fail. Max 100 points from project work. Grading of projects: 70 % supervisors, 30 % firm representative.

Course Materials:

Handout materials. Other material depending on the project work.

Limitation for students? (Yes, number, priorities/Leave empty):

Yes, 80. Priority is given to LUT M.Sc. level students in business administration.

Places for exchange-students? (Yes, number/No):

Yes

Places for Open University Students?(Yes, number/No):

No

Teachers: Anna-Maija Nisula

Year:

M.Sc. (Econ. & Bus. Adm.) 2

Period:

1

Teaching Language:

English

Teacher(s) in Charge:

Post doctoral researcher, D.Sc. (Econ. & Bus. Adm.) Anna-Maija Nisula

Aims:

By the end of the course, students will be able to:

- familiarize themselves with the state of the art literature on the studied subject;
- identify basic concepts, functioning principles and enabling tools for organizational learning;
- apply organizational learning literature and methods to future work and learning situations.

Contents:

The course consists of the following parts of participation and interaction:

- 1) individual literature study: independent and intensive reading and reporting of the provided course materials,
- 2) participation in a PBL exercise,
- 3) participation in a group work: a case analysis, written group work report, presentation, and related discussion.

Teaching Methods:

Intensive lecture and study discussion (8 hours), Reading assigned articles and writing summaries (60 hours), PBL exercise (6 hours), Commenting on others work (6 hours), Group case analysis, report and presentation (80 hours), Total workload for student 160 hours.

A365A0301: Organizing in Knowledge-Based Networks, 6 cp**Validity:** 01.08.2016 -**Form of study:** Basic studies**Type:** Course**Unit:** LUT School of Business and Management**Grading:** Study modules 0-5,P/F**Teachers:** Kirsimarja Blomqvist**Note:**

Replaces the course A365A0300 Knowledge-based networks.

Year:

M.Sc. (Econ. & Bus. Adm.) 2

Period:

1-2

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Econ. & Bus. Adm.) Kirsimarja Blomqvist

Aims:

- Students can describe the key theoretical concepts and theories on knowledge-based organizing
- Students can apply the theory and key skills related to working a digital platform to solve real-life complex problems
- Students can reflect their individual and team behavior
- Students can present effectively their project outcomes to customer
- Students can discuss their solution constructively, give & get feedback and document the lessons learned by the project team

Contents:

- Key concepts related to organizing knowledge in networks
- Alliance, collaboration and network orchestration capability
- Innovation ecosystems, collaborative crowdsourcing, temporary teams and digital platforms

The course is related to entrepreneurship and sustainability.

Teaching Methods:

Lectures and interactive seminars 20 hrs, 1-3. periods,

Independent studying online 80 hrs

Course assignment work (real-life sustainability related problem solving in hybrid teams) 60 h

Total workload for student 160 h

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

CS30A1661: Open Innovation, 6 cp

Validity: 01.08.2013 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Antero Kutvonen, Daria Podmetina, Justyna Dabrowska, Ekaterina Albats

Year:

M.Sc. (Tech.) 2, M.Sc. (Econ. & Bus. Adm.) 2

Period:

Periods 1-2, Periods 3-4

Teaching Language:

English

Teacher(s) in Charge:

Researcher, D.Sc. (Tech.) Antero Kutvonen

Aims:

Student

1. can explain the concept of open innovation through both theory and examples (to e.g. a company executive)
2. identifies open innovation activities in real life companies and explain the motives for engaging in them and the mechanisms through which they create value for the company
3. can distinguish between modes of inbound and outbound open innovation
4. can analyze the relation between a company's strategic choices and application of open innovation
5. attains a basic familiarity with the scientific literature on the theme and the ability to view open innovation in the context of other innovation management theories.

Contents:

Must know: The fundamental definitions and concept of open innovation. Modes of inbound open innovation, i.e. external acquisition of knowledge, and outbound open innovation, i.e. external exploitation of knowledge. Difference between closed and open innovation in managing technology. Identifying open innovation activities in real life firms. Monetary and strategic motives for engaging in open innovation.

Should know: Process models of inbound and outbound open innovation. The role and importance of the individual process phases. The relation between corporate strategy, technology strategy and open innovation activities. Most common examples of firms used to explain open innovation. Varying topics from state-of-the-art open innovation research, depending on guest lecturer. Basics of IPR management in open innovation.

Nice to know: Development of the open innovation concept on the basis of prior innovation management theories. Knowledge of the main scientific literature surrounding open innovation. Theoretical determinants of open innovation.

Teaching Methods:

Lectures and guest speakers 35 h as intensive teaching. Small group assignments during lectures. Group exams (or substituting them with summaries of scientific articles, 24 h) on three of the intensive days, preparing for exams 24 h. Independent study 72 h. Total 155 h.

CS30A1671: Service Innovation and Management, 6 cp

Validity: 01.08.2016 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Ville Ojanen, Kalle Elfvingren

Year:

M.Sc. (Tech.) 1-2

Period:

3-4

Teaching Language:

English

Teacher(s) in Charge:

Associate Professor, D.Sc. (Tech.) Ville Ojanen

Aims:

Student can

1. recognize and categorize the variety of services and service firms in modern industrial environment as well as understand their influence in management of industrial innovations
2. identify the characteristics of services and evaluate the similarities, differences and links between services and physical products
3. define the dimensions of service innovations
4. explain the processes of new service development
5. summarize the main managerial challenges in service innovation management
6. select and apply the suitable frameworks, tools and methods, to overcome some typical real-world challenges in service innovation management

Contents:

Typologies of service firms. Characteristics of services. Product-service systems in manufacturing industry. Knowledge-intensive business services. New service development process. Dimensions of service innovations. Productization of services. Supporting methods for service innovation management. Managerial challenges in service innovation management. Utilization of frameworks, methods and tools in service innovation management. Roles of different types of firms in service systems and networks. Value creation through services. Customer-centric service development.

Teaching Methods:

Lectures and exercises 20 h, 3rd period. Seminars 12 h, 4th period. Group assignments and project work 120 h. Total 152 h.

Examination in Examination schedule (Yes/No):

No

Examination in Moodle (Yes/No):

Year:

M.Sc. (Tech.) 1

Period:

1

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Tech.) Risto Soukka

Aims:

Upon completion of the course the students are expected to be able to:

- 1) explain the interaction between the environment, society and business and understand the relationships of various actors in these fields and their impacts on the society and the environment;
- 2) understand the core idea and thinking behind sustainability and its importance in order to limit or decelerate environmental damages and improve our quality of life while pursuing a more sustainable lifestyle and business within the planetary boundaries;
- 3) understand and apply practically the learned principles and concepts of sustainability in relation to current production and consumption habits;
- 4) know and be guided about the different value-adding activities and tools that promote sustainability; and
- 5) demonstrate the ability to reflect sustainability principles in the assignment, studies and desirably in thinking and lifestyles.

Contents:

The general objective of the course is to introduce students to different sustainability challenges that our world is facing as a consequence of human activities and natural causes. The idea is to learn and understand those sustainability challenges and their interconnectedness, and find out how we could move or transit towards a more sustainable world.

Teaching Methods:

1st period: 14 h of lectures. Independent study (approx. 64 h): assignment (group work) and seminar (approx. 26 h). Preparation for the examination and the exam (approx. 38 h). Total workload 78 h.

Examination in Examination schedule (Yes/No):

Period:

4

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Tech.) Helinä Melkas

Aims:

The student learns to understand the significance and meaning of social sustainability in development of business, organization as well as product and service processes. This aim is approached by looking into the theme both from theoretical and practice-based viewpoints. The student gains insight into the kinds of tools and methods that enable social sustainability to become part of business, management as well as product and service development. The student recognizes appropriate situations for applying these methods, and gains elements for critical thinking.

Contents:

Core content: social sustainability at different levels (global, societal and organizational), social innovation, frugal innovation, social enterprise, end-user involvement, employee involvement, human impact assessment
Supplementary content: practical cases, methods and Living Lab activities

Teaching Methods:

Lectures (intensive teaching) and small group assignments during the lectures 5 h; case exercise to be given during the lectures 60 h; independent and/or group studies 66 h; presentation of case exercises in a closing seminar 10 h; personal learning diary 15 h = total 156 h.

A350A0500: Sustainable Strategy and Business Ethics, 3 cp

Validity: 01.08.2013 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Business and Management

Grading: Study modules 0-5,P/F

Teachers: Karl-Erik Michelsen, Laura Olkkonen

Year:

M.Sc. (Econ. & Bus. Adm.) 1

Period:

2

Teaching Language:

English

Teacher(s) in Charge:

Post-doctoral Researcher Ph.D. Laura Olkkonen

Professor, Ph.D. Karl-Erik Michelsen

Aims:

This course concentrates on the topical phenomena and concepts related to the creation and development of sustainable strategy, shared value creation and business ethics in organisations. The concepts will be investigated both from the viewpoints of academic research and practical relevance. Students will learn to discuss and synthesize the recent literature, examine the links of contemporary topics to previous research and assess the practical relevance of the issues through concrete examples. The learning outcomes of the course are the following:

1. To assess the topics of sustainable strategy and business ethics in the firm level as well as within the broader institutional context from both academic and practitioner perspectives.
2. To discuss and debate on the conflicting perspectives of sustainability and ethics in business.
3. To be able to analyze the practical relevance of sustainable business strategy

Contents:

The content of the course is based on topical issues related to sustainable strategy and business ethics from different approaches.

The core content includes: - Basics of sustainability and ethics in business context - Recent trends and developments of sustainable strategy and corporate responsibility - Sustainability issues in the supply network - Key business ethics challenges

Teaching Methods:

In-class hours: 2. period: 12 hours of lectures; 12 hours of interactive theme sessions and seminars; and an interactive panel session with business and societal experts (4 hours).

Out-class hours: Preparation for the theme sessions and seminars: 12 h. Course assignment in groups 40 h. Total hours: 80 h.

Teachers: Lassi Linnanen, Mirja Mikkilä

Note:

The course is intended for international students or Sustainability minor students. Literature examination in the electric exam system. Registration for the course in WebOodi during the academic year. Registration for the exam using the electric exam software (Exam). The examination can be carried also during the vacations. Beyond the academic year the registration only for the electric exam software. Moodle is used as a communication platform.

Year:

B.Sc. (Tech.) 3

Period:

1-4 Calendar year

Teaching Language:

English

Teacher(s) in Charge:

Professor, D.Sc. (Econ. & Bus. Adm.), M.Sc. (Tech.) Lassi Linnanen, Associate Professor D.Sc. (Agr.& For.) Mirja Mikkilä

Aims:

Upon completion of the course the student is expected to be able to:

1. recognize the relationship between the company and society,
2. explain the connection between corporate responsibility and business strategies,
3. recognize organizational, economic, and social issues related to corporate social responsibility,
4. identify tools and mechanisms of corporate responsibility,
5. name dimensions and stakeholders related to corporate responsibility,
6. explain the importance of stakeholders in his/her own words.

Contents:

Corporate environmental strategies and application of the methods of environmental management. Analyzing the impacts that environmental management has on business. Identifying the sectors of responsible business operations. Basics of corporate ethics. Informing of and reporting on corporate responsibility issues to the stakeholders. Reporting of corporate social responsibility. The course is related to sustainability.

Teaching Methods:

Literature examination in the exam aquarium. All the exams done during one calendar month are to be reviewed by the 15th of the following month. Total workload 78 h. See Moodle for further instructions and contact information.

Assessment:

0 - 5. Examination 100 %.

Course Materials:

Werther, William B. Jr., Chandler, David: Strategic Corporate Social Responsibility: Stakeholders in a Global Environment, 2010. Other material and literature specified in MOODLE course overview.

Prerequisites:

BH60A1600 Basic Course on Environmental Management and Economics attended or equivalent knowledge.

Period:

2

Teaching Language:

The course will be lectured in English. The assignments and exam is possible to do in Finnish. If you want to do the course in Finnish, please contact the teacher.

Teacher(s) in Charge:

Professor, D.Sc. (Econ. & Bus. Adm.) Lassi Linnanen

Aims:

Upon completion of the course the student is expected to be able to:

- 1) describe the challenges that sustainable development poses to society and businesses;
- 2) understand how and what environmental responsibility and sustainability means for business;
- 3) identify corporate stakeholders and analyse their importance and environmental viewpoints;
- 4) understand the basics of environmental regulations, environmental strategy and risk management;
- 5) use and compare the indicators of eco-efficiency;
- 6) explain the basics of life cycle thinking, management and related concepts;

- 7) explain the steps of planning and implementing environmental management system;
 8) know the different environmental communication and marketing tools; and
 9) synthesise the basic environmental management tools and explain the reasons for their application.

Contents:

Identifying the influence of sustainable development on business. Learning the basic concepts related to corporate responsibility and corporate environmental management. Identifying corporate stakeholders and their importance. Understanding the basics of environmental regulations and the concepts of environmental strategy and risk management. Recognising the indicators of eco-efficiency. Knowing the basics of life cycle analysis and related concepts on environmental product design. Knowing the basics of building and maintaining an environmental management system. Understanding the basics of environmental communication (environmental marketing, eco-labelling and sustainability reporting).

Teaching Methods:

2nd period: 24 h of lectures, including two voluntary case exercises (group work). Share of individual work (approx. 106 h). Written assignment, approx. 56 h, written examination and preparation for it, approx. 50 h. Total workload 130 h.

BL40A2600: Wind power and solar energy technology and business, 5 cp

Validity: 01.08.2013 -

Form of study: Basic studies

Type: Course

Unit: LUT School of Energy Systems

Grading: Study modules 0-5,P/F

Teachers: Katja Hynynen, Olli Pyrhönen

Year:

B.Sc. 3

Period:

3-4

Teaching Language:

Finnish

Teacher(s) in Charge:

D.Sc. Katja Hynynen

Aims:

Upon completion of the course the student will be able to: 1. model the process from wind energy into company turnover at the principle level, 2. identify and describe the key technologies related to wind power, the core business principles, environmental issues, energy policy and their development trends, 3. describe the mutual effects of wind power and electric power systems, 4. identify and describe the technologies related to solar power., 5. describe the basic principle of photovoltaic cells, 6. estimate the performance and profitability of a PV plant.

Contents:

Core content; process modelling from kinetic energy of wind into company turnover and from solar radiation to turnover. Complementary knowledge; basic components of a wind power plant (turbine, gearbox, generator, power electronics, power electronics, tower),

environmental effects of wind power, wind park planning, grid effects of wind power, economic feasibility of wind power under different circumstances, wind conditions in Finland. Solar energy technologies, operating principle of solar panels, PV solar power plant structure.

Teaching Methods:

Lectures 14 h, homework, 3rd period. Lectures 14 h, 4th period. Weekly homework. Two assignments. Total workload 130 h.
